

George Matthew Fricke

4412 Inspiration Dr SE
Albuquerque, NM 87108
(505) 453-0688
matthew@fricke.co.uk

Citizenship: United States, United Kingdom

EDUCATION

Doctor of Philosophy, Computer Science

Title: “Search in T cell and Robot Swarms: Balancing Extent and Intensity”

The University of New Mexico, Albuquerque, NM, May 2017

GPA: 3.85

Master of Science, Computer Science, concentration in Artificial Intelligence

Title: “Phylogenetic Reconstruction Using Competitive Neural Networks”

The University of New Mexico, Albuquerque, NM

Bachelor of Science, Mathematics *cum laude*

The University of New Mexico, Albuquerque, NM

Bachelor of Art, Anthropology, concentration in Archaeology

Appalachian State University, Boone, NC

PUBLICATIONS **Journal Articles**

TEACHING

Introduction to Programming Swarm Robots Fall 2017
University of New Mexico Computer Science Dept.

- Instructor of Record. Dual graduate and undergraduate course in Swarm Robotics. Students learn to program robots in hardware and using the Gazebo simulator. Emphasis on writing collaborative algorithms using the Robot Operating System (ROS) and ARGoS frameworks.

Complex Adaptive Systems Spring 2017
University of New Mexico Computer Science Dept.

- Instructor of Record. graduate course in Complex Adaptive Systems. We cover dynamical systems, genetic algorithms, game theory, cellular automata, and network theory.

Quantifying and Modeling T cell Motility in Lymph Nodes Summer 2016
Tenth q-bio Summer School, Albuquerque, NM

- Guest Lecturer: taught maximum likelihood analysis and methods for distinguishing motility models.

Mathematical Foundations of Computer Science Summer 2013
University of New Mexico Computer Science Dept.

- Instructor of Record: Responsible for all aspects of this course in discrete math. Topics covered include proofs, set theory, logic, combinatorics, state machines, generator functions and recurrence relations.

Complex Adaptive Systems Spring 2013
University of New Mexico Computer Science Dept.

- Teaching Assistant: Assisted Prof. Moses in organizing, grading, and teaching this graduate level course.

Intermediate Programming with Java Fall 2012
University of New Mexico Computer Science Dept.

- Teaching Assistant: Lectured on Java programming, ran labs, designed and graded assignments and exams.

Computer Programming Fundamentals with C++ Summer 2003
University of New Mexico Computer Science Dept.

- Instructor of Record. Responsible for all aspects of this course which provides engineering students with a foundation in problem solving using C++.

Discrete Math Spring 2002
University of New Mexico Computer Science Dept.

- Guest Lecturer: taught inference rules and proof techniques.

PROFESSIONAL EXPERIENCE

Adjunct Professor, Post-doctoral Fellow Technical Lead 2017-Present
Dept. of Computer Science and UNM-NASA Swarmathon,
University of New Mexico

- Supervise eight graduate and undergraduate programmers.
- Swarmathon: Responsible for all technical aspects of the UNM-NASA swarm robotics resource collection competition including software, hardware, team support, outreach organisation, and purchasing. This program has three components: outreach to more than 40 underserved universities and colleges and more than 50 highschools; novel swarm robots, and development of swarm search algorithms for those robots.

Graduate Research Assistant and Swarmathon Software Lead 2012-2016
Dept. of Computer Science,
University of New Mexico

- Supervised two programmers and a mathematician in Melanie Moses' biological computation lab.
- Analysis of immunological search processes.
- Development of novel swarm search algorithms using ARGoS and a Beowulf cluster.

Research Programmer Spring 2011
 Institute for Mathematics and Education, University of Arizona

- Designed and coded mathematical problems as examples of the Common Core States Standards for mathematics for the Illustrative Mathematics Project website. Funded by the Bill and Melinda Gates Foundation.

Research Programmer (Contractor) 2004-2010
 Los Alamos National Labs, Los Alamos, NM

- Team leader supervising two programmers.
- Developed a biochemical reaction network generator and analyzer (BioNet-Gen) using Perl and Java for the Theoretical Biology Group (T10) under Bill Hlavacek and James Faeder.
- Developed a web-based version of the software (GetBonnie) using PHP, Java, and SQL under Redhat linux (LAMP).

Graduate Research Assistant Summer 2003
 Department of Physics and Astronomy, University of New Mexico

- Developed a Monte-Carlo computer simulation of IgE cell signaling in C++ with James Thomas (UNM Physics).

Analyst-Programmer II Summer 2002
 Center for Advanced Research Computing (CARC), University of New Mexico

- Summer position working with Gregory Starr (UNM Mechanical Engineering) at the CoMeT (Computational Mechanics Toolkit) robotics group.
- Implemented Neural Networks, Fuzzy Logic Systems in order to generate robotic hand grasp parameters for nuclear waste handling in C++ and Scheme. Funded by the Department of Energy and the Idaho National Engineering and Environmental Laboratory.

Research Assistant 2001 - 2002
 University of New Mexico NASA Pursue Program

- Worked in George Luger's (UNM Computer Science) lab on the design and implementation of an embodied, agent-based, robotic control system. Funded by the NASA Center for Autonomous Control Engineering.

Programmer II, Systems Analyst I 1993 - 1999
 University of New Mexico Health Sciences Center, CPH and MHC.

- System administration, design, and implementation. Began as helpdesk technician II for several thousand computers in a heterogeneous network environment, promoted to systems analyst responsible for planning and administration of all computer and network systems for two UNM departments. Implemented system administration tools.
- Supervised three full time employees.

Field Archaeologist 1991-93
 Mariah and Associates, National Park Service, and Appalachian State University

COMPUTER SKILLS

Languages: C++ (QT, MPI, ROS, OpenGL), Matlab, Java, Javascript, SQL, HTML5, PHP and Java web interfaces (full stack including node.js)

Systems Administration: Linux (Ubuntu, Redhat), Windows Server and AD, network infrastructure (DNS, DHCP, NFS, LDAP, Apache and IIS web services)

Certifications: Certified Systems Engineer, Certified Network Engineer

COMMUNITY SERVICE

- Reviewer for *Swarm Intelligence, Automatica, Journal of Theoretical Biology, DARS: Distributed Autonomous Robotic Systems, IROS: IEEE/RSJ Intl. Conference on Intelligent Robots and Systems, Alife: Conference on the Synthesis and Simulation of Living Systems, BDA: Biological Distributed Algorithms, ICRA: International Conference on Robotics and Autonomy, and ISRR: International Symposium on Robotics Research.*
- Workshop Organizer, Robotics Science and Systems Conference, Workshop Hackathon: “Become a swarm programmer overnight”. MIT, 2017.
- Contributor to the Rcpp package for R: the Project for Statistical Computing
- Volunteer, UNM/VEX Robotics Competition, 2014
- Instructor, UNM Computer Science Middle School Outreach, 2014, 2015
- Judge, Senior Mathematics, Senior Computer Science, Annual Central NM Regional Science & Engineering Research Challenge, 2012, 2013, 2016 and 2017
- Volunteer Grader, Public Service Company of New Mexico State Math Competition, 2012

PROF. ORGS.

Association for Computing Machinery (ACM)
International Association for Artificial Life (ALIFE)
Institute of Electrical and Electronics Engineers (IEEE)
Complex Systems Society (CSS)

GRANTS AND AWARDS

Biological Distributed Algorithms Workshop Travel Grant, 2017
Best Poster, Quantifying Complex Transport with Lévy Walks at the From Cold Atoms to Humans and Robots Workshop, 2016
NSF Travel Grant distributed by Rice University R3G410, 2016
1st place 12th Annual UNM Computer Science Graduate Conference, 2016
University of New Mexico Office of Graduate Studies Travel Grant, 2015
2nd place 10th Annual UNM Computer Science Graduate Conference, 2014
1st place Tech New Mexico Competition 2013
1st place, Student Paper Competition, IEEE Symposium on Artificial Life, 2011
Appalachian State University *dean's list* 1st year.
